COLLECTION

A collection of remarkable estates made for destination weddings

in France, Spain, and Italy.

One estate. Three days. An entire world to make your own.

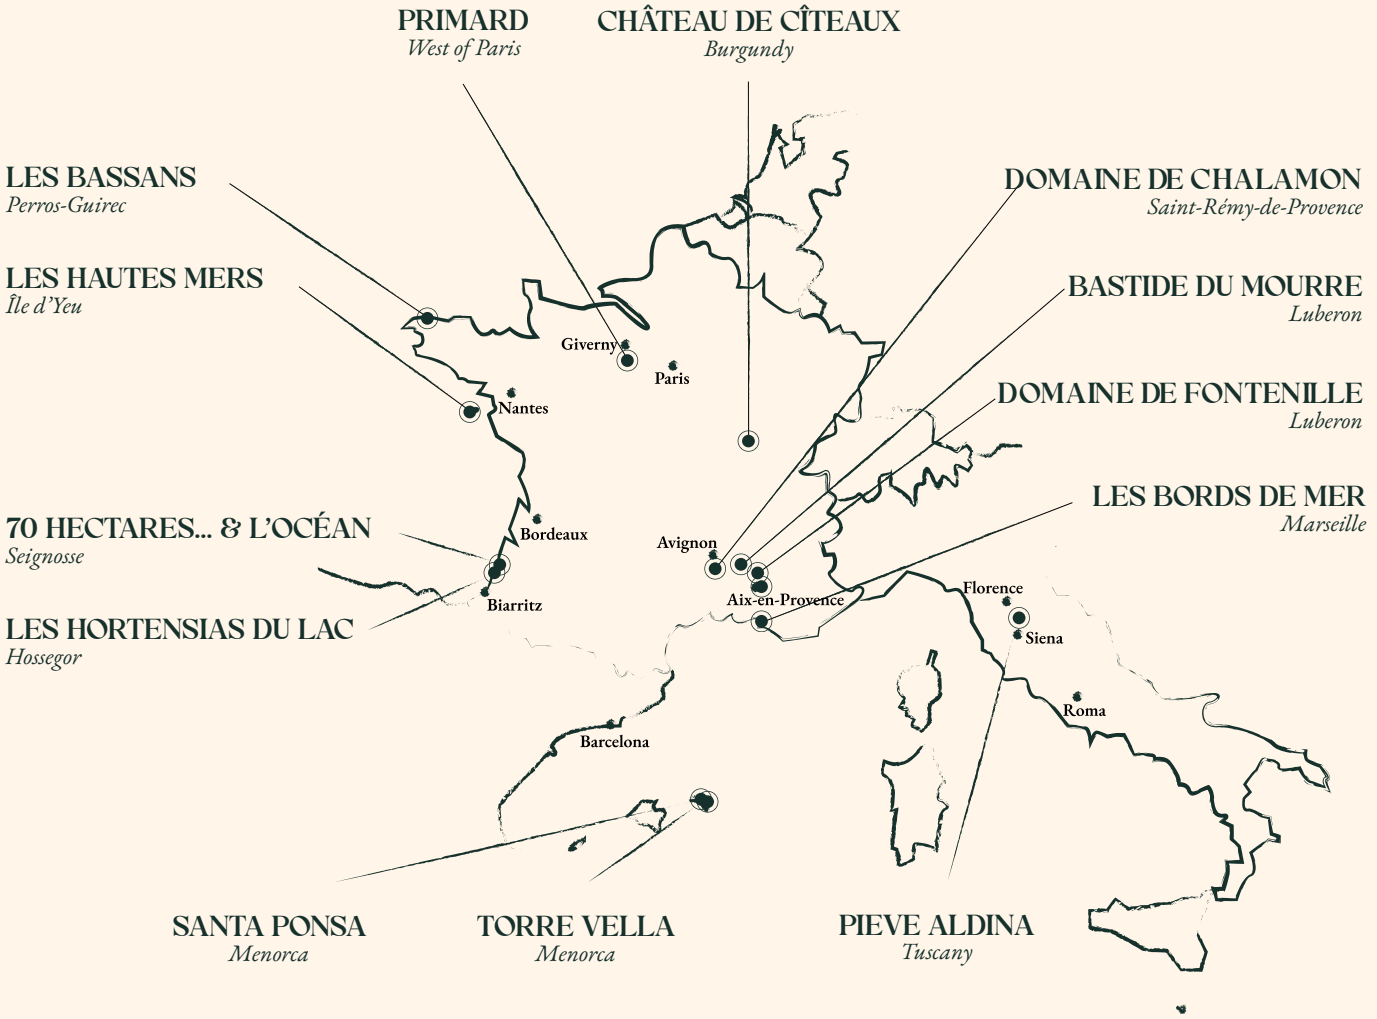

Where the estate becomes the destination

No two Fontenille weddings are alike - because no two Fontenille estates are alike. Each has its own landscape, history, architecture and way of life, giving every celebration a true sense of place and an identity of its own.

More than a setting for the wedding day, each estate becomes the home of the celebration: three days to gather, celebrate, dine, explore and create entirely different moments — all in one place.

Made entirely yours

From the first welcome to the farewell brunch, every celebration is shaped around the couple, the estate and the people they choose to bring together.

Why choose Fontenille Collection?

1. INTIMATE BY DESIGN

With their intimate scale, Fontenille estates offer a more personal setting for weddings and celebrations. Designed to feel like private homes rather than traditional luxury hotels, they allow couples and their guests to gather, stay and celebrate together, often over several days.

2. ROOTED IN THEIR DESTINATION

Each estate is deeply connected to its surroundings, history and local culture. Architecture, landscapes, gastronomy and the art of living come together to create celebrations that feel genuinely connected to their destination.

3. A DISTINCTIVE SENSE OF PLACE

Each Fontenille estate has its own identity, shaped by its heritage, architecture and natural surroundings. This strong sense of place provides a meaningful foundation for celebrations that feel considered authentic and never interchangeable

4. A COLLECTION TO DISCOVER

No two estates are alike, yet they share the same signature: authenticity, understated luxury and a deeply rooted art of living. Together, they form a collection designed to offer a different perspective on destination celebrations.
